

**KEN'S GREETINGS**

*"It's Spring"*

Winter is hopefully ending and a new growing season is beginning. Here at Cattails, April is really the start of our year as we hire new help, introduce new products and offer you proven products at great prices. Let's get started with this months' offerings.

Attention gardeners, new for 2011 is the addition of Browns' grass seed and lawn food. Browns is a leader in lawn care in Dutch country PA. We're happy to announce it is now available at Cattails.

April showers bring May flowers... now is the time to collect the rain with a new rain barrel. We keep several different styles within different price ranges.

Our nursery is starting to receive plants weekly. Stop out and start adding color to your landscape. Pansies are looking bright and colorful and will stay great for weeks and lots of times will return to your garden next spring.

New for this year is a product that is an all-natural population of microbes that will strengthen the plants root system allowing more uptake of nutrients and water making the plant stronger. The product is called **THRIVE**. Stop in today and allow us to tell you how easy its to improve your plants soil.

Yes, it's been a long winter, but as the days are getting longer and the temperatures are starting to rise, we will be open longer too. We are now open Sundays 11am-5pm Monday thru Thursday 9am to 7pm, Fridays 9am to 8pm and Saturdays 9am to 7pm.

See you soon.

**MARK YOUR CALENDAR**

Also mark your calender as we have a **garden seminar on April 19th at 6:30pm** will be helping new gardeners understand the gardening lifestyle from doing your own lawn care landscaping to growing your own food. It's a fun hobby but also a great way to save money. Call now or register online to save a seat.

**The second day to save is Saturday, April 23rd** for our annual "Aloha Spring Open House" so pull out that tropical shirt, sun glasses and enjoy the day with us.

**PRODUCT SPOTLIGHT**

*"Algaefix & Microbe-Lift*

Pond owners, this month you'll want to stay ahead of algae growth. I'm offering two great products at one great price. Algaefix is our number one product to control green water and string algae. With Algaefix you'll then want to add beneficial bacteria to your pond to help break down the dead organic waste. To do this process we use Microbe-Lift.

**SAVE \$14**  
regular price is \$40.98

**Algaefix + Microbe-Lift**  
**\$26<sup>99</sup>**  
valid April 2011 only!
