

**KEN'S GREETINGS**

*"May Flowers"*

The April showers are over. Now it's time for May flowers and what better way to show off the flowers than with pottery. We have a great selection of pots that will fit right into your outdoor living room.

**FLOWER GARDEN**

When planting pots of flowers for decorations around your entrance ways, decks and patios, use a good light soil mix to insure proper root development and drainage.

Also add a granular fertilizer into the mix for a more continuous feeding.

When selecting plants to put in pots, do not be afraid to mix tall, short, vining, or variegated plants. The better the mix, the showier the plants. Remember to fertilize potted plants and hanging baskets with a liquid fertilizer everytime they are watered to keep them looking their best. The reason for fertilizing so often is that everytime the plant is watered, nutrients are leached out of the soil. Nutrients need to be continually replaced.

**VEGETABLE GARDENING**

*There's still plenty of time to plant vegetables.*

Take some time and look at all the different varieties of tomato and pepper plants we have. We have different types arriving weekly. Ask any of our sales staff for some recommendations.

**PRODUCT SPOTLIGHT**

*Pots & Baccto Soil*

Featuring a fertilizer package consisting of both starter and slow-release fertilizers, BACCTO® Premium Potting Soil is ideal for use right out of the bag as a general-purpose potting soil. Whether used indoors or out, the advanced, proven blend of rich dark reed sedge peat, perlite, and sand ensures successful growing in containers or beds.

**40 quart/20lb.**
